

Do you Chapungu (CHA-poon-goo)?

The real showcase within the Centerra community is the one-of-a-kind Chapungu Sculpture Park. Nestled in the foothills of the Rocky Mountains, this 26-acre outdoor cultural experience features more than 80 authentic stone sculptures carved by artisans from Zimbabwe displayed amongst beautiful natural and landscaped gardens.

The entire walking park which is handicap accessible, orients visitors to eight universal themes, which include: **Nature & Environment • Village Life • The Role of Women • The Elders • The Spirit World • The Family The Children • Custom & Legend.**

Whether you are an art enthusiast or just enjoy the outdoors, this serenity spot is worth checking out. Concrete and crushed rock used from the makings of the sculptures refine trails and lead you along the Greeley and Loveland Irrigation Canal and over bridges. Soak in the sounds of the birds perched high above in the cottonwood trees while resting on a park bench with a novel or newspaper in hand. Participate in Centerra's annual summer concert series, enjoy a self guided tour, picnic in the park, or attend Visit Loveland's Winter Wonderlights hosted at the park and you are bound to have a great experience each time you visit.

Chapungu Sculpture Park is conveniently located just east of the Promenade Shops at Centerra off Hwy. 34 and Centerra Parkway in Loveland, Colorado. Open year round and within walking distance to retail shopping, local businesses, fine dining, entertainment and nearby affordable lodging accommodations.

URBAN NATURALISM | CITY AND SANCTUARY IS A WINDOW.

When culture collides with nature, a wonderful equilibrium can flourish. Here’s where the urban naturalism movement began.

Chapungu Sculpture Park at Centerra is the only outdoor permanent exhibit in the world displaying more than 80 monumental works of art traversing 26-acres of natural and landscaped gardens. Since the late 1950’s Zimbabwe Stone Sculpture has been a contemporary art phenomenon that has played a significant role in the development of art from Africa. This explosion of cultural expression had early influence from Joram Mariga and his Nyanga Group in 1957, but the main thrust came from the new National Gallery under its first Director, Frank McEwan in 1957-1958. Other important communities such as Tengenenge in Guruve and Chapungu Sculpture Park became involved in the late 60’s and still support and promote artists to this day.

Chapungu opened in 2007 and is a recent recipient of the Planet Select “Showcase Garden Award” to honor excellence in design vision. Chapungu is intertwined with flourishing horticultural displays and a natural preserve that provides a sanctuary for native pollinators, migratory birds, and other wildlife within a rapidly growing area.

The Great Lawn at Chapungu Sculpture Park can be rented for weddings, receptions, corporate gatherings and fund-raising events. Visit the website at www.chapunguatcenterra.com or call 970.962.9990 for rental details.
